Extend your warranty for added peace of mind*

Lec Medical has now launched a comprehensive extended warranty package enabling you to protect your Laboratory product beyond our free of charge 2 years parts and labour warranty.

This package includes new for old replacement and offers reassurance in the current uncertain economic climate.

* UK only

REASONS TO CHOOSE LEC MEDICAL

Most Laboratory models are now Atex approved. The internal refrigeration chamber is classed as zone 2, category 3 when the door is closed. The external parts of the refrigerator are classed as safe areas and as such do not need to comply with the requirements of the Directive. Look out for the Atex symbol

We offer **free delivery on ALL Laboratory refrigeration** units featured in this brochure*

The majority of our Laboratory range is **manufactured in the UK** to the highest quality standards. Look out for the  'Made in UK' symbol

We have total confidence in our products and back that up with a **2 years parts and labour warranty***

Our award-winning customer help centre is on hand 363 days a year, 7 days a week to offer guidance in the unlikely event of a problem with one of our units, with a team of 180 service engineers covering the whole of the UK to deal with any issues quickly and efficiently*

Our **large nationwide distribution centre holds stock** of most of our range, enabling us to supply products to meet orders promptly and with different delivery options to suit you

Lec Medical takes its environmental responsibilities seriously – we always try to use the most environmentally friendly refrigerant gases where possible, meaning **our units are not only kinder to the environment but also require less energy to run**

We are **leading approved supplier to the Government Procurement Service**, enabling NHS facilities involved with this service to order easily and at a competitive price

Every single unit is **individually tested and quality checked** before it leaves the production line to ensure it is in full working order

*UK only

■ NEW IMPROVED LAB RANGE

We have developed our new range with reliability and ease of use in mind. All our Laboratory fridges operate at a temperature of +2°C to +10°C and our freezers operate at -18°C and below. We have also added a number of improvements to certain popular models to ensure we are offering you the best possible secure and reliable refrigerated storage. Many of our models are also available with an alternative fitted European plug.

Lec Medical suggests the following advice to ensure you are getting the most from your Laboratory fridge or freezer:

- ✓ Do not open the door for prolonged periods
- ✓ Always ensure the door is closed firmly after use
- ✓ Do not overstock the unit as this can affect the internal airflow
- ✓ Clean the unit regularly, ensure freezers are defrosted according to the recommendations provided
- ✓ Always ensure your fridge or freezer has space around it for cooling airflow to prevent the refrigerant system working harder than it needs to

*UK only

Atex Approved

Most Laboratory models are now Atex approved. The internal refrigeration chamber is classed as zone 2, category 3 when the door is closed. The external parts of the refrigerator are classed as safe areas and as such do not need to comply with the requirements of the Directive. Look out for the Atex symbol

Optional Plug Types

Many of our models are available with a variety of plug types depending on your country. Please contact us for details

Ready to Use

Lec Medical fridges are supplied with a preset temperature of +2°C to +10°C and freezers -18°C and below, meaning they are ready for use as soon as you plug them in

Energy Efficient Refrigerant

Many models in our new range use R600a refrigerant, which is kinder to the environment as well as being an efficient cooling system, meaning the running costs of the fridge are kept as low as possible. Look out for the R600a symbol for our most efficient model

Our NEW advanced controller explained

Temperature accuracy to 0.1°C

Main panel shows an average internal air temperature and min/max levels can easily be displayed

Our high-tech controller will also show a min/max simulated core temperature (allows you to see the actual temperature of contents stored, not simply air temperature)

Control panel can be locked to avoid accidental changes to desired settings

New Advanced Controller

Our latest integral controller enables the user to select minimum and maximum temperatures, and manage the warning alarm system at the press of a button

Lock Fitted as Standard

Maintains security and ensures the unit can only be accessed by approved personnel

Anti Microbial Handle

Helps prevent the growth of bacteria and minimise the potential for cross contamination within your laboratory. Look out for the anti microbial symbol for units with this unique feature

Auto Defrost Feature

Ensures the most efficient cooling and units with the lowest on-going maintenance

Storage Flexibility

Shelf heights can be varied in all our units to ensure you are able to maximise the storage potential of your Laboratory refrigerator

Fitted Rollers

Available on all under-counter and freestanding models, makes moving the units for repositioning or cleaning straightforward

UNDER-COUNTER REFRIGERATION RANGE

New Advanced Controller

Manage the internal temperature and monitor min/max settings at the touch of a button

Fitted Lock

Maintains security and helps prevent unauthorised access. All units come with 2 keys

Anti Microbial Handle

Helps prevent the growth of bacteria and minimise the potential for cross contamination

Wire Shelves and Basket

Enable optimal airflow inside the unit. Shelf positions can be varied for maximum storage capacity

Fitted Rollers

For easy moving and cleaning

Model Number	SKU Code	Gross Capacity	Dimensions H x W x D (mm)	Weight (kg)	Temperature Range Fridge
LSR151UK	444440964	151 litres	845 x 595 x 595	36	+2°C to +10°C

Stacking kit available with 151 models

The Lec Medical Stacking Kit allows you to safely stack any two of our 151L models one on top of the other. It's perfect for environments where space may be limited.

We offer a wide range of Laboratory models to suit your needs, from smaller countertop units, ideal for when space is limited, space efficient under-counter models that fit easily under working benches and a range of larger, freestanding units, ideal for when extra storage capacity is required.

Our NEW Under-counter LSR151

Space Efficient

Under-counter storage offers laboratories a simple way of refrigerating vital products, in a space-effective way. At only 845mm high, our LSR151 fits neatly under most work benches and has fitted rear rollers to assist in moving the unit when access is required for cleaning behind it.

Space Effective

Our LSR151 has a large internal storage capacity of 151 litres. To optimise storage effectiveness, ALL Lec Medical Laboratory fridges and freezers are spark free, and our specially designed wire shelves and door furniture allow cold air to circulate easily within the cabinet.

■ STORAGE SOLUTIONS & ALTERNATIVES

Lec Medical offers a range of storage solutions compatible with selected models in our Laboratory refrigeration range, enabling you to manage the space inside the fridge effectively and safely.

MIX & MATCH

On-shelf organisers are all interchangeable and **Lec Medical can offer a bespoke service** to create the Laboratory refrigeration storage solution to best suit your needs.

Anti-bacterial Sit On Shelf Organisers

Our tough plastic shelf organisers are perfect for organising drugs and vaccines most effectively. They simply sit on existing fridge shelves.

Key Features

- ✓ 448mm wide x 350mm deep footprint – suitable for many Lec models or other units already in your laboratory
- ✓ Anti-bacterial plastic inhibits bacterial growth and minimises the risk of cross contamination
- ✓ Supplied with 17mm pre-drilled holes to maintain effective cooling airflow within the fridge
- ✓ xtra dividers available separately to compartmentalise contents

TEMPERATURE MAPPING

DID YOU KNOW?

We now offer a temperature mapping service. Call us now for more details
UK Only

Lec Medical data loggers are a simple and reliable way of recording the temperature inside your Laboratory fridge over a period of time.

EASY TO SET UP

This USB compatible data recorder is a simple and cost effective way of recording temperature within all refrigerators.

Simply plug the data logger into your PC and set the logging rate and start time.

Then place the unit on a shelf inside the fridge, shut the door, and the logger will record the temperature at the intervals you select (every 10 seconds up to every 12 hours).

EASY TO DOWNLOAD

We supply the logger with software, allowing the user to quickly and easily configure the unit to meet their requirements.

Simply plug the logger into any USB port on your computer and download the stored data.

You can use this data in many ways and it can be easily displayed as a graph, enabling you to quickly view the temperature history inside the fridge over time.

LONG LASTING

- ✓ The logger works in a wide temperature range from -35°C to +80°C
- ✓ Large memory capacity - you can store up to 16,382 readings
- ✓ The Lec Medical data logger has an easy to replace lithium battery for regular or extended use
